## ANTI-MICROBIAL PROTECTION

The interior of your RV serves as a hotspot for up to 700 strains of bacteria and can be 9X's dirtier than a public restroom! The NAC RV Care Antimicrobial treatment dramatically reduces the growth of future microbes including mold, mildew, bacteria and viruses. It is 99.99% effective for protection against a broad spectrum of microorganisms and elimination of microbes and odors. It creates a protective barrier on all interior surfaces resulting in a clean and healthy environment.
